What is Scouts?

Scouts is a wonderful program offered by Scouts Canada to further develop and grow youth physically, spiritually and mentally. Youth gain valuable leadership skills and a perspective of the world that they have never seen before. From camping and hiking trips, to the world famous badge programs, the sky is the limit. Meetings are weekly and there are many opportunities to help within the community as well. These skills can not be learned inside the classroom but rather be experienced in the communities and in the wild. Welcome to the real world. Welcome to God's wonderful creation.
